

## Description

With an innovative refrigeration system that can save on energy costs and improve efficiency. Built to international quality standards, ensuring you are guaranteed a good long term investment.

The stylish design and the integrated handles give the cabinet an enhanced appearance. With the use of quality stainless materials, foods can be prepared safely and hygienically on the top surface. Under the counter storage maximizes valuable available space and castors make it easy to move for cleaning underneath.

A smart cooling system provides constant air flow throughout the cabinet ensuring excellent food preservation for meats, dairy, vegetables, and much more.
